## DETAILED ACTION

### *Claim Rejections - 35 USC § 101*

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-5 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

In order for the claimed invention to be statutory subject matter, the claimed invention must fall within one of the statutory classes of invention as set forth in § 101 (i.e. a process, machine, manufacture, or composition of matter).

In the present case, claims 1-5 are directed to "A method for enabling a business entity to raise funds and awareness over a distributed network", which is not within one of the classes of invention set forth in § 101.

The "A method for enabling a business entity to raise funds and awareness over a distributed network" comprising the steps of (a) enabling ....; (c) providing interactive ... entity, as shown are merely an abstract idea and do not produce a useful, tangible, concrete results.

The "A method for enabling a business entity to raise funds and awareness over a distributed network" comprising the steps of (a) enabling ....; (c) providing interactive ... entity, as shown are merely an abstract idea and does not reduce to a practical application in the technological arts (involving computer/computing means or equivalent) and are therefore are found to be non-statutory. Applicant fails to disclose 1) how the distributed network relating to computer/computer network and 2)

involvement of the network in the steps of the claim or to carry out the steps of the claim.

See *In re Alappat*, 33 F.3d at 1544, 31 USPQ2d at 1557, or *In re Waldbaum*, 173 USPQ 430 (CCPA 1972) or *In re Musgrave*, 167 USPQ 280 (CCPA 1970) and *In re Johnston*, 183 USPQ 172.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. **Claims 1-5 are rejected under 35 U.S.C. 102(a) as being anticipated by ARTICLE 11/1999 ("Tis the Season ... of children", November 29, 1999).**

**As for independent claim 1**, ARTICLE 11/1999 discloses a method for a business entity to raise funds and awareness for a fundraising entity over a distributed network (Internet or website [www.wingspanbank.com](http://www.wingspanbank.com)) comprising the steps of:

- (a) enable the business entity (wingspanBank.com) to identify at least one fundraising entity (Toys for Tots),
- (b) hosting one or more fundraising events associated with the fundraising entity (Toys for Tots),
- (c) providing interactive participation between at least one user and the fundraising entity (where shoppers can donate money directly). (see paper).

Art Unit: 3629

**As for dep. claims 2-3**, this is inherently included in the communication network (Internet/website) of ARTICLE 11/1999 above wherein email or other electronic messages are normally provided to allow communications between the business entity, consumer and fundraising entity.

**As for dep. claim 4**, this is inherently in the teaching of ARTICLE 11/1999 wherein the consumer can purchase a range of popular toys at 50% discount of the regular price and the customer will receive additional 5% cash back when they pay with the credit card of wingspanbank.com.

**As for dep. claim 5**, this is taught in ARTICLE 11/1999 wherein the shoppers can donate money directly to the [www.toysfortots.org](http://www.toysfortots.org).

***Claim Rejections - 35 USC § 103***

**5. Claims 2-4 are rejected (2<sup>nd</sup> time) under 35 U.S.C. 103(a) as being unpatentable over ARTICLE 11/1999.**

**As for dep. claims 2-4** which deals with communication over the network such as email or other electronic messages, it would have been obvious for an artisan to provide those communications over the web or web sites of [www.wingspanbank.com](http://www.wingspanbank.com) to allow effective communications between the business entity, consumer and fundraising entity which inherently motivates the user to buy and make donations when their questions and reservations are being met.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patent 2001/0054003 is cited to teach all sources of communications between parties during a fundraising event and could have been used in the rejections above. (see 0041).
